MOHAMMED SAHIL

Chicago, IL | 630-888-2856 | mohammedsahil786sz@gmail.com | LinkedIn

SUMMARY

Data Science and Machine Learning professional with experience building and evaluating AI-driven systems across startup and institutional environments. Skilled in predictive modeling, NLP, data analytics, and business strategy, translating complex datasets into actionable decisions. Contributed to ML prototyping and investor-facing analytics at an AI startup, driving measurable impact in research and business settings. Architected structured validation systems, reproducible experimentation pipelines, and rigorous performance benchmarking. Founder and Lead Organizer of TEDxIllinois Tech, leading cross-functional collaboration and transforming data into strategy and community-scale impact.

TECHNICAL SKILLS

Programming: Python, SQL, R | **Data & Visualization:** Pandas, NumPy, Tableau, Power BI, Excel | **Tools:** Jupyter, Git, Retool
ML & Modeling: Scikit-learn, Linear & Logistic Regression, Random Forest, XGBoost, Time Series, Model Evaluation (RMSE, F1, AUC), Cross-Validation, Feature Engineering | **NLP:** TF-IDF, Sentiment Analysis, Text Classification, Embeddings, Transformer Models
Cloud & Big Data: AWS, Hadoop | **Methods:** A/B Testing, Experimental Design

PROFESSIONAL EXPERIENCE

Machine Learning & AI Strategy Analyst — XYN LLC (Dream Engine) Jul 2025 – Present
Chicago, IL

- Architected and evaluated ML validation frameworks for multi-modal AI storytelling systems, designing structured comparison pipelines that improved cross-modal output consistency by ~20% and reduced evaluation ambiguity across 50+ iterative test cycles
- Developed investor-facing KPI dashboards and technical performance reports, synthesizing model metrics, experimental benchmarks, and product analytics to support $380K+ in early-stage fundraising and strategic investor engagement
- Partnered with executive leadership to formalize AI workflow documentation and validation protocols across 3+ core AI modules, improving model transparency and supporting 25+ structured product iteration cycles

Graduate Research Assistant — Illinois Tech Community Engagement Council Oct 2024 – May 2025
Chicago, IL

- Spearheaded research on community engagement initiatives, analyzing university-community relationships across 250+ projects to develop strategies and data-driven reports that impacted 5,000+ community members, driving change and fostering partnerships

Business Data Analyst — WNDR Museum Aug 2024 – Dec 2024
Chicago, IL

- Implemented data analysis using sentiment analysis and designed interactive dashboards that revealed key visitor insights, boosting targeted engagement by 30% and streamlining exhibition strategies by 25%, enhancing planning efficiency through predictive analytics
- Collaborated with cross-functional teams to refine data collection processes and integrate predictive analytics, reducing reporting discrepancies by 20% and improving exhibition planning accuracy by 85%, leading to more data-driven strategies for future exhibitions

AI Product Analyst — Greater Than Equal May 2024 – Aug 2024
Chicago, IL

- Orchestrated market fit analysis to identify key trends and established customer feedback loops, enhancing decision-making by 20% and boosting customer satisfaction by 30% through user insights, improvements, and integrating AI-driven systems to optimize engagement
- Pioneered the development of a GPT/AI agent, improving process efficiency by 25% and streamlining engagement across stakeholders

Customer Success Engineer — GlowTouch Technologies Oct 2022 – Aug 2023
Mangalore, India

- Enhanced application functionality by optimizing network configuration and delivering proactive customer-focused troubleshooting, driving a 25% improvement in performance and a 15% increase in issue resolution efficiency through algorithm-based monitoring
- Streamlined communication between 100+ customers and IT developers by collecting and analyzing feedback, enabling transformative improvements in functionality and a 30% increase in user satisfaction while empowering development teams to address critical needs

PROJECT

MindBridgeAI — NLP-Based Culturally Intelligent Mental Health Support System Feb 2025 - May 2025

- Developed an NLP-driven chatbot supporting 2,500+ students, analyzing 1,000+ survey responses to improve response accuracy by 35%
- Designed model evaluation dashboards and stakeholder reporting frameworks to guide ethical AI deployment and system optimization

EDUCATION

Illinois Institute of Technology, Chicago, IL May 2025
Master of Applied Science, Data Science, GPA 3.50

- Graduate Pathway Scholarship, Outstanding First Year Involvement and Clinton E. Stryker Award
- Founded and led TEDxIllinois Tech, organizing impactful events and fostering innovation and community engagement
- Course work: Machine Learning, NLP, Applied Statistics, Data Preparation and Analysis, Big Data Technologies, Probability, Time Series

AMC Engineering College – VTU, Bangalore, India Aug 2022
Bachelor of Engineering, Computer Science, GPA 3.54

- National Merit Scholarship Recipient, VTU Mathematics Gold medalist for 2 straight semesters, best outgoing student Award
- Created AI-based algorithm for image contrast enhancement, 'Data Protection' technical seminar presentation at Cyber Safe Karnataka

CERTIFICATIONS

- Introduction to Statistics | Stanford University | Coursera Jan 2023
- Google Data Analytics Professional Certificate | Coursera Oct 2023
- AWS Certified Cloud Practitioner | Amazon Web Services Training and Certification Sep 2021
